2.2 - Catering to Student Diversity

2.2.1 - The institution assesses the learning levels of the students and organises special Programmes for advanced learners and slow learners

With a rich experience of four decades, Shri Jagannath Sanskrit University (SJSU) recognizes the diverse nature of its students. In any classroom, whether post-graduate or undergraduate levels of education, students exhibit varying learning speeds and abilities. At SJSU, we place strong emphasis on identifying students who may require additional support through remedial, tutorial and proctorial classes for slow learners. The University encourages, promotes and rewards advanced learners who excel and require opportunities by accelerated learning with medals, cash prizes, momentous and certificates.

In this context, "slow learners" refer to students who may face challenges in keeping up with the regular classroom pace and require extra attention to bridge the gap between their progress and their receiving capacity. The identification of such students is based on multiple factors, like adverse situation in their family, health issues, interest in other things like arts, music etc. for which they remain absent in the class and couldn't cope up with the progress in the course.

At the commencement of each course, our dedicated faculty members assess the learning levels and knowledge of the students in their classes and take care of them. Based on this assessment, special classes like remedial, tutorial and proctorial classes are arranged by the Departments for slow learners.

- **Assessment of Course Outcomes:**

The attainment of course outcomes at ShriJagannath Sanskrit University (SJSU) is evaluated through a comprehensive process that encompasses various elements. These include syllabus coverage, the successful completion of syllabi, continuous assessment, question paper preparation, evaluation of student responses, examinations and the declaration of results. Within each Department, the Heads and Faculty Members dedicated to a particular course make diligent efforts to ensure timely completion of the curriculum. In cases where students require additional support, extra classes are organized to assist those who may be performing at an average level. Furthermore, a minimum attendance requirement of 75% is mandatory for students to be eligible for examinations.

- **Attainment of Program-Specific Outcomes:**

The assessment of program-specific outcomes involves aggregating the performance of individual students across all courses within a given program and then calculating the average performance of all students within that program.

- **Attainment of Program Outcomes:**

At both the Post - Graduate and Undergraduate (Shiksha Shastri-B.Ed) levels, the achievement of program outcomes is assessed through various measures. One key metric is the progression of

students to higher studies, either within SJSU or at other esteemed higher educational institutions in India. Additionally, the success of our students in securing placements, whether in Government or private organizations or through self-employment, serves as a vital indicator of program outcome attainment.

Here are some of the key initiatives that underscore our IT integration and examination reforms:

Regular Internal Assessment:

Within practical and sessional activities, we have placed a strong emphasis on fostering IT and ICT skill development among our students. These activities form integral components of our internal assessment process. Notably, in alignment with the curricula for Acharya (P.G.) and Shiksha Shastri (B.Ed.) programs, we assess our students' ICT skills, particularly their ability to create specific technical resources for teaching several Shastras. These endeavours are pivotal in enhancing their professional competencies. We encourage students to use ICT like online presentation, quiz competition by various institutions and online Internal Examination during this period.

End-Semester Assessment:

Our end-semester examinations are conducted in online mode. Both our dedicated teaching staff and students have effectively made the online examinations. This approach to examinations has significantly reduced stress levels among our students. To further streamline our examination procedures, we have issued clear directives to our campuses and affiliated colleges to exclusively conduct all examination processes in an online mode during the pandemic.

ShriJagannath Sanskrit University (SJSU) has established a well-defined system for assessing the learning outcomes of its programs and courses. We employ the following mechanisms to effectively communicate these learning outcomes to both our esteemed teachers and students:

Accessible Syllabi: The syllabi for our programs and courses are readily available within each Department and in the University website, ensuring easy access for both students and faculty members.

Inclusive Discussions: Our faculty members discuss with the students the summery, long, short and objective-type questions at the end of each topic of the curriculum. These discussions encompass the learning outcomes, emphasizing their practical applications and relevance.

Online Accessibility: The Program Outcomes (POs), Program Specific Outcomes (PSOs), and Course Outcomes (COs) are prominently displayed in the website of SJSU. This online resource is accessible to all stakeholders, including faculty, students, and alumni.

Digital Curriculum: Soft copies of the curriculum, including detailed learning outcomes for programs and courses are uploaded in the website of the University for easy access and ready reference.

Collaborative Curriculum Design: The process of designing program curricula at SJSU is methodical, scientific, holistic, and collaborative. Inputs are gathered from faculty members, alumni, and students to ensure comprehensive

curriculum development.

Consultative Approach: Administrative bodies such as the Departmental Curriculum Committee, Board of Studies, and Academic Council all play a consultative role in fine-tuning any proposed changes in the curriculum. This collaborative effort ensures that curriculum revisions align with the evolving needs of our students and at a broader educational landscape.

2.6.2 - Attainment of Programme outcomes, Programme specific outcomes and course outcomes are evaluated by the institution during the year

- **Assessment of Course Outcomes:**

The attainment of course outcomes at ShriJagannath Sanskrit University (SJSU) is evaluated through a comprehensive process that encompasses various elements. These include syllabus coverage, the successful completion of syllabi, continuous assessment, question paper preparation, evaluation of student responses, examinations and the declaration of results. Within each Department, the Heads and Faculty Members dedicated to a particular course make diligent efforts to ensure timely completion of the curriculum. In cases where students require additional support, extra classes are organized to assist those who may be performing at an average level. Furthermore, a minimum attendance requirement of 75% is mandatory for students to be eligible for examinations.

- **Attainment of Program-Specific Outcomes:**

The assessment of program-specific outcomes involves aggregating the performance of individual students across all courses within a given program and then calculating the average performance of all students within that program.

- **Attainment of Program Outcomes:**

At both the Post - Graduate and Undergraduate (Shiksha Shastri- B.Ed) levels, the achievement of program outcomes is assessed through various measures. One key metric is the progression of students to higher studies, either within SJSU or at other esteemed higher educational institutions in India. Additionally, the success of our students in securing placements, whether in Government or private organizations or through self-employment, serves as a vital indicator of program outcome attainment.
